Rice Whitening Abrasive Rollers

The Pioneer & the best Manufacturer of Rice Rubber Rollers in India

Hindustan brand is specially made abrasive rollers for rice whitening machines. It has unique firing cycle and composition to give best polishing and life. **Hindustan** Abrasives is the latest brand from our group i.e. Hindustan Group. Our group is already associated with rice industry since 30 years, through its Rubber Roller manufacturing units, situated at Ghaziabad, Sonapat and Delhi.

In producing vitrified wheels, most important part is of firing cycle in the kiln for different application & different size of wheels. The temperature & the period of firing also varies, but at present other companies are making wheels of all applications & sizes in one cycle itself. We fire the whitening wheels in one cycle of kiln & hence we are trying to be very specific & give our best to the rice industry.

Hindustan Abrasives
